## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see pages 17-18, filed 27 June 2005, with respect to claims 1-13 and 15-21 have been fully considered and are persuasive. The 35 U.S.C. §103 Rejections of claims 1-13 and 15-21 have been withdrawn.
  
2. Applicant's arguments, see pages 18-19, filed 27 June 2005, with respect to claim 14 have been fully considered and are persuasive. After further review, Applicant's assertion that the tables disclosed in the Malzbender reference are the maps and not the editors is valid. The 35 U.S.C. §103 Rejection of claim 14 has been withdrawn.

### ***Drawings***

3. Applicant's amendments, see page 2 and replacement drawing sheet, filed 27 June 2005, with respect to the following have been fully considered and are persuasive:
  - Figure 6, Item 81
  - Figure 7, Item 81
  - Figure 9, Items 156 and 158
  - Figure 14, Item 457
  - Figure 15, Item 531

The objection to the drawings has been withdrawn.

***Specification***

4. Applicant's amendments, see pages 2-6 and 15, filed 27 June 2005, with respect to the following have been fully considered and are persuasive:

- Paragraph 0031, line 11
- Paragraph 0080
- Paragraph 0091

The objection to the specification has been withdrawn.

***Claim Objections***

5. Applicant's amendments, see pages 7-11 and 15, filed 27 June 2005, with respect to claims 1, 5-7, 11-13, and 15 have been fully considered and are persuasive. The objection to claims 1, 5-7, 11-13, and 15 has been withdrawn.

***Allowable Subject Matter***

6. Claims 1-30 are allowed.

7. The following is an examiner's statement of reasons for allowance:

8. With respect to claims 1-30, while prior art discloses a plurality of parametric texture maps (PTMs), each of the PTMs having a format different than the formats of the other formats, prior art, either alone or in combination, does not disclose a **plurality of format specific editors**. Furthermore, prior art does not disclose or suggest a **PTM editing tool configured to receive a command to perform a spatial operation on a**

**PTM identified by the command, the PTM editing tool configured to select one of the format-specific editors based on a format of the identified PTM and to invoke the selected format-specific editor in response to the command.**

9. The closest prior art, although not entirely as claimed, discloses many of the details but is not applicable prior art as noted in Applicant's remarks dated 27 June 2005.

10. Malzbender ("Polynomial Texture Map (.ptm) File Format") further fails to disclose these details as Applicant notes. In particular, Malzbender discloses a plurality of parametric texture maps (PTMs), each of the PTMs having a format different than the formats of the other formats. However, Malzbender does not disclose or suggest a PTM editing tool configured to receive a command to perform a spatial operation on a PTM identified by the command, the PTM editing tool configured to select one of a plurality of format-specific editors based on a format of the identified PTM and to invoke the selected format-specific editor in response to the command.

11. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
